## PROFESSIONAL EXPERIENCE

**Full Stack Web Developer** | DotCom Valley — Oct 2025 – Present

*Dhaka, Bangladesh*

- Develop and maintain WordPress and Shopify websites, from custom theme code through to deployment.
- Build custom WordPress themes converted from static prototypes for energy, petroleum, maritime, dental and oral-care brands.
- Develop plugins on PSR-4 codebases: scored quiz engines, pre-order systems, call widgets and lead pipelines.
- Train and integrate AI voice agents using CallFluent and ElevenLabs for inbound and outbound call flows.
- Manage hosting operations on Hostinger — new site provisioning, domain and DNS setup, SSL and full migrations.
- Harden site security with firewall rules, IP blocking and access control.
- Build funnels and scored quizzes using Convertri, Quizify, UpViral, KickoffLabs and WordPress.
- Deliver directory builds and AEO/GEO technical work so pages can be surfaced and cited by AI search.
- Provide website consultancy across technical strategy, UI/UX and site structure.
- Conduct code reviews, debugging and optimisation to improve site speed and responsiveness.
